Forecast For The United Kingdom
Issued by Met Office Exeter
at 0400 on Thursday 07 Jan 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Rain and snow moving across northern UK today.

Today:
Early rain, sleet and snow over Scotland and Northern Ireland moving into northern England and North Wales, brighter weather and wintry showers following. Elsewhere, mostly dry but early freezing fog patches slow to clear. Feeling cold.

Tonight:
Outbreaks of rain, sleet and snow and icy patches affecting parts of England and Wales. Southeastern England mainly dry whilst snow showers catch parts of Northern Ireland and northern Scotland.

Friday:
Outbreaks of rain, sleet and snow continuing over parts of England and Wales. Southeastern England mainly dry whilst snow showers catch parts of Northern Ireland and northern Scotland. Feeling cold.

Outlook for Saturday to Monday:
Frosty start Saturday. Occasional rain and strong winds at time across parts of Scotland from later Saturday, bringing some hill snow. Elsewhere, staying rather cold with patchy fog at times.
